Presenters & Sponsor

Promotional Partners

The British American Business Council is pleased to partner with Verus for our **2017 Spring Economic Luncheon**, taking place Tuesday, March 21 from 11:30am to 2:00pm at the World Trade Center in Seattle.

Come engage in an interactive discussion and learn from our dynamic panel of experts as they share their projections on how local and global economic patterns will affect, and are currently affecting, business in 2017.

Speakers will review economic forecasts from around the world and their likely impact on the U.S. economy. They will also take a deep dive into the probable outcomes of the currently booming conditions in the US and the Northwest region, including predictions on the real estate markets, stock, equity and bond market forecasts, and the environment surrounding IPS and M&A exits.

Bringing it all back to our own backyard, experts will share insights on Washington's economy and endeavor to best identify the opportunities and risks that Pacific Northwest businesses might anticipate in 2017.
